Curious Effects of a Salt Storm. Washington Star.

At the Porter's Neck Plantation, on the Sound, the salt spray from the ocean, wafted in shewers across the intervening banks and Sound by the great storm, killed every living thing in the fields except the peanuts, which, curious to say, seemed to have bene-fitted by the bring shower bath. All the leaves on a mock orange hedge, commencing in close proximity to the Sound, and running back about one mile, were completely killed.

UNCLE BEN JO'S

CREAT SOUTH AMERICAN PANACEA

UNCLE BEN JO was born in Bostom in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and hadalways supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance of. This herb, Uncle Jo, as well as the natives, considered a very obnotions and poisonous one, and when green and result threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large. burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only iound in the extreme interior of the country, and the natives there call it "Zarr Neto." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgis and rheumatism. We have a whole library full of testimonials: Sold by OSBURN & SHOEMAKER, Reno, Nev.

The history of Kelly's zealous labors for the great democracy would fill a large book. The democracy has cherished John for the sake of his followers, and John in turn has bossed the democracy as a business proposition. His motive has been so entirely and distinctly corrupt that whenever a general election approached, the democracy did not dare to carry him. The beginning of every important campaign for ten years has witnessed "Bossism repudiated." But the boss won't stay repudiated. He has been boss of the party of great moral ideas all the time.

This unseeming rejoicing at the possible withdrawal of Kelly at this time is a little premature. He may change his mind. What will the poor little democracy do then?

WHAT WILL THEY DO WITH IT

The GAZETTE has taken pains to give the people the truth regarding the short-hand reporter's bill of \$915. After the argument has been made, the enemy's fire all drawn, and when it is almost certain the bill will not pass, the Journal joins us. The Journal is welcome. That paper says the District Attorney has been entirely too forward in the matter of this bill. and that the Commissioners were in a very inconsiderate baste in allowing it. It is pleasant to learn that our opinion is endorsed.

The Journal says, "We expect Rufus Kinney, the Republican member of the Board, to sustain the Auditor.' The GAZETTE expects all of the Commissioners to do their duty.

The Justice had no right to pres the bill, the District Attorney had no right to advocate it, and the Commis sioners no business to allow it,

That is about the indictment, and they must plead guilty or not guilty on Monday next.

WASHINGTON, December 2. After recess yesterday the cross-exmination of Guiteau was continued. Witness showed great shrewdness in down by Judge Porter. He asserted that he was on good terms with Conkling and all "those men." Garfield's nomination, election and removal were all acts of God. Witness's act in killing Garfield had saved the country from another war. The prisoner finally complained of fatigue and the

He glanced at the papers a moment and then said: "I desire Judge Porter, lo state to you and this honorable court that I decline to answer any more questions which are mere repetitions of what we have already been

Judge Porter immediately resumed cross-examination with the question: "Was one of your purposes in re-

moving the Passident to create a demand for your book?" Answer-Yes, sir, with a modifica-

tion that it was to teach the Gospel. Witness soon became excited and. gesticulating wildly, insisted upon his inspiration, and that the Lord bad selected him to do the work. He was no fool, the Lord. He never selected tools to do his work. He had inspired him to remove Garfield and left him to use his own judgment in selecting the means." Continuing, excitedly, "And the Lord has taken care of me. I have neither been shot nor barmed."

Judge Porter-And you did not exect to be?

Answer-I decline to discuss the matter. I did not have any thought on the subject. I left all that to the Deity.

A CLEVER WITNESS.

Witness repeatedly refused to answer the questions, or as he termed it, "discuss the matter." At one time he appealed to the Court for protection against the manner of crossexamination. Judge Porter said: "I

refuse to answer, that will suit my purpose just as well."

Witness at once turned to Judge inspiration from the Delty, and compared it paragraph by paragraph with "Bertan," the Oneida Community ook written by John H. Noyes.

The similarity of ideas and identical expressions was apparent all through, though witness struggled desperately to explain away his pla The letter addressed Suiteau to the Oneida Community was then read in which the writer con-fessed his love for and subjection to John H. disposition.
Guiteau insisted, in spite of warnngs, in making his explanations as the reading progressed. "I was elbowing my way out of the Community then," said the witness. "You want to imagine yourself in hell, ladies and gentlemen, and trying to get out, then you can understand my position at that time."

Witness believed in the personal existence of Deity and the devil, and when the impulse to remove the President selzed him, he wrestled and prayed to find if it came from the Lord or the devil. Had it not been for the political situation witness would not have shot the President,

would not have shot the President, but would have believed the impulse was prompted by the devil.

Witness was then asked, "Are you insane at all?" and he replied, "I'm not an expert. Let these experts and jury decide that." When pressed for his opinion witness declined to answer. He was then subjected to a rapid series of questions, and soon began to exhibit irritability and anger.

Witness detailed his movements up Witness detailed his movements up to the time he saw the President and to the time he saw the President and Secretary Blaine emerge from the house of the latter, said Gulteau. They walked along so lovingly, arm in arm, like two school girls. Their fellowship confirmed me in the belief that Garfield had sold himself, body and soul, to Blaine. That Blaine was using him to ruin ihe Stalwart wing of the Republican party.

Guiteau here became furiously excited. Striking his fist with violence, he shouted, "Yes, sir; in my epinion Blaine is morally responsible for the death of Garfield." Recess.

row Gauge Road which Taps Southern Nevada,

The Carson & Colorado railroad is now completed and in running order to Seda Springs, 137 miles from the Mound House, its initial station, and is but 13 miles this side of Bellville. Stages now leave Soda Springs daily for Belleville, Montezuma, Cundelaria, Gold Mountain, Silver ?eak, and other places in that direction. At Lunning, 125 miles from the Mound House stage lines connect the road with Grantsville, Tybo, Belmont, and other places in that part of the State. Today Gilmer, Saulisbury & Co. put on their stage line connecting with Grantsville, Belmont and several other leading towns and camps in the eastern part of the State. The roadbed is well constructed and the track carefully laid with steel rails. As a result heavy trains run smoothly at al high rate of speed. Construction will be continued all through the winter. The company now have on hand 1,000 tons of steel rails and 100,000 ties, with more rails and ties on the way. The road will be completed to Belleville by the 15th of this month, and by the 1st of January the cars will be run-Robert Glen 97.7, Laura Colwell ning into Candelaria. From that point the line will be extended to Gold Mountain, and probably for a long distance beyond, until connection is made with the Southern Pacific.

More Villainy at Verdi,

As train No. 2 passed over the switch at the Verdi Flume Siding at 9:20 last night the engineer thought something was wrong with the swith. The section men were sent down from Verdi and found the switch lock broken and the switch thrown for the Siding. The lock had been put on new at five o'clock of the same day, and no trains had been in through the switch since.

Just before No. 7 freight and emigrant train passed west, about an hour afterwards, the switch was again found turned, the miserable sneak, evidently not feeling satisfied with his first atemigrants awhile. That Verdi whelp smith 97, Katie Harrison 97, Emma will keep at it until he brings up at the taut end of a rope yet.

1882. THE RENO GAZETTE

For 1883 will be a better paper than it has ever been before. It now gets all the latest press dispatches, and is thus placed many hours shead of any other paper. It has always been the policy of the proprietor to make the Gazerre a first-class local paper, with full accounts of everything that occurs in Reno, or Washoe county, or the State of Nevada. The resources of the country are carefully studied and written up by able correspondents, and the Gazerre has done as much as all the other papers combined in this respect.

THE WEEKLY CAZETTE

Contains all the reading matter of the Dally, without its advertisements. It is an eight-page paper, with good, plain letters and clean, white paper. It has increased in an extraordinary manner in the last six months, and is now growing rapidly. Its interesting matter, crisp editorials and late news make its popularity. By availing themselves of our club rates, the Werkelf Gazerre costs only half a dollar a year. It is given with the Bulletin, Chronicle, Examiner or Record-Union, which cost alone two dollars and fifty cents, or three dollars; with Harper's publications and the Argonaut for four dollars and fifty cents a year, and with other papers in proportion. Send for sample copies.

THE SUN.

NEW YORK. 1882.

THE SUN for 1883 will make its afteenth annual revolution under the present management, shuning, as always, for all, big and little, mean and gracious, contented and unhappy. R publican and Democratic, deprayed and virtuous, intelligent and obtuse.

on the blistering backs of the persistently wicked.

THE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous worce and phrases of ancient journalism. It undertook to report in a freeh, enceinct, unconventional way, all the news of the world, omitting no event of human interest, and commessing upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of The Sun. It effected a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years past has been modified and bettered by the force of The Sun's example.

THE SUN of 1882 will be the same outspoken, truth-telling and interesting newspaper.

By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with The Sun. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bokhara.

In politics we have decided opinions; and

nappens worth reporting we get the particulars, whether it happens in Brooklyn or Bokhara.

In politics we have decided opinions; and are accessiomed to express there in language that can be understood. We say what we think about men and events. That habit is the only secret of The Sun's political cours. The Werkly Sun gathers in'e eight pages the best matter of the seven daily issues. An Agricultural Department of unequaled merifull market reports, and a liberal proportion of literary, scientific and donestic intelligence complete the Werkly Sun, and make it the best newspaper for the iarmer's household that was ever printed.

Who does not knowandread and like 7 mm Sunday Sun, each number of which is a Golconda of interesting literature, with the best newty of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little? If our idea of what a newspaper should be pleases you, send for The Sun.

Our terms are as follows:

For the daily Sun, a four-page sheet of twenty-eight columns, the price by mail, post-paid, is 55 cents a month, or \$6 50 a a year; or, including the Sanday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7 70 a year, postage paid.

The Sunflay edition of The Sun is also

ostage paid.

The Sunday edition of THE SUN is also urnished separalely at \$1 20 a year, postage paid.
The price of the WEELLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sezding \$10 we will send an

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a sweakening of the eystem in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albamen will appear, or the color will be of a thir milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weak nees. Dr. S. will guarantee a perfect eure in all such cases, and a healthy restoration of the genite-urinary organs.
